AFTERNOON DISPATCHES

Treasury Officials Retire as to the Forged Bonds.

Tax on Artificial Limbs—A Ship Captain Sued \$5,000—Pennsylvania Independent.

Associated Press Dispatches.

WASHINGTON, May 24.—Treasury officials decline to give further information at present regarding the forged bonds, and are keeping the matter very quiet.

EVERYTHING GAIERE.

Secretary Folger authorizes the contradiction of the statement that he has discovered enormous frauds in the matter of bonds given by distillers for whisky in bond, and that his relations with Commissioner Raum are unpleasant.

ADULTERATING WINES.

Berry presented in the House a petition of the Sonoma Viticultural Club, in which they oppose the levying of a tax upon artificially made sparkling wines. They say they will give hearty support to any wise legislation prohibiting or restricting the manufacture and sale of pure grade wine of any article which is not entirely the product of the grape. They also insist that the carbonation of pure wine is eminently wholesome, and not deleterious to health.

GENERAL RAMSEY DEAD.

Brevet Major-General George D. Ramsey, United States Army, retired, is dead.

BLAINE TO TESTIFY NEXT WEEK.

Blaine will not appear before the Committee on Foreign Affairs until next week.

THE PENNSYLVANIA INDEPENDENTS.

The State Committee in Session at Philadelphia.

PHILADELPHIA, May 24.—The Independent Republican State Convention met this morning. United States Senator Mitchell was chosen temporary chairman by acclamation amidst great applause.

In returning thanks, Senator Mitchell said the work of the convention was not to nominate a ticket that would help the Democratic party or defeat the Republican party, but to nominate one that would receive the respect and support of the Republican party. There must be an order of political things; leaders, but not "bosses." It would be well for the convention to declare against this system. The speaker said he would be glad to stand before the convention and declare his desire to support the administration of the President if the latter were disposed to enforce civil service reform; but he was sorry to say there were not yet any such indications on the part of President Arthur. He trusted that the Republicans in the State would assist in ridding the party of the bad influence of the corrupt atmosphere by which it has been so long surrounded. The roll of delegates was then called.

Chas. S. Wolfe was chosen permanent chairman of the Committee on Organization, and Senator Stewart chairman of the Committee on Resolutions. H. C. Foster was made permanent chairman, with a vice-president from each Senatorial district. During the course of Foster's remarks he asserted that the death of President Garfield was chargeable directly to the spoils system, and spoke of the political power of the State as something that had too long been regarded as a sort of patrimony to be handed down from father to son.

Dr. Doane who was also called upon, said: "Gentlemen, I am heartily resolved that we will put our grand old party where the immortal Lincoln found it and the immortal Garfield left it."

Marshall's withdrawal from the regular ticket gives great satisfaction to the delegates.

MARSHALL DECLINES.

Thomas Marshall last night made public his letter of declination of the nomination for Congressman-at-Large.

HIS ATTITUDE.

Thos. M. Marshall, in an interview, said that he would not attend the Independent Convention; that he did not desire office; that he would not accept the Independent nomination if tendered him; that he will support General Bevier for Governor, but cannot support Roul for Supreme Judge.

Apaches Flocking into New Mexico.

CHICAGO, May 24.—A letter to the Times from Carrizal Pass, Texas, about 600 miles west of Dallas and 113 east of El Paso, says that much alarm is felt there on account of the close proximity of large parties of hostile Apaches going northwest as a distance of from three to fifteen miles from the camp of hunters, miners and prospectors near Carrizal Pass, and in full sight of them. The hostiles are fleeing from Mexico to New Mexico, having been driven from the south of the Rio Grande by the Mexicans. Major Taylor and fifteen of his Texas rangers have arrived at Carrizal Pass and were to depart this morning for a scout through the Guadalupe mountains after hostiles, keeping together prepared for emergencies. As yet, no murders are reported.

Greenback Labor Convention.

St. Louis, May 24.—The Greenback National Committee has promulgated an address to the American people leveled against the bank, railroad, telegraph, land and moneyed monopolies. It charges the Republican and Democratic parties with bad legislation in the extension of bank charters. It declares against national banks, high railroad fares and telegraph tolls; and in favor of land for actual settlers, for greenbacks and a tariff in the interest of labor; for the right of labor to combine; for the payment of the national

debt and against refunding it; for equal rights for all—special privileges for none, and ends by calling on all industrial organizations to join them.

Silk Shed.

St. Paul, May 24.—An Indian Territory special says: Moses Silk, a notorious ruffian and murderer, was riddled with bullets by Sheriff Taylor, at Fort Shunk. Silk was drunk and quarrelsome, and resisted arrest, making a desperate fight. He is credited with killing five men and being accessory to many murders.

Lynchers at Work.

GALESTON, May 23.—A Belton special says that on Sunday morning early one hundred masked men took from the jail Sam Hilton (white) and James Keyes (colored) and hanged them both. They were charged with a murderous assault on the deputy jailer.

THE COAST.

A Light Rain in the Upper Counties of the State.

SAN FRANCISCO, May 24.—Last night and this morning a light rain fell in the northern and central part of the State, extending well up the San Joaquin valley, sufficient in some localities to somewhat improve the crop and feed prospects.

THE GRAIN EXCHANGE AT WAB.

SAN FRANCISCO, May 24.—The Produce Exchange held a very hot meeting this morning over the question raised on account of the number of prominent members who are seeking to join the Brokers' Grain Exchange, among whom are such well known operators as George W. McNear, W. T. Coleman, H. LeMeyer, A. Bannister, of the Star Mills Company; R. Bruce, of Halfour, Guthrie & Co.; E. Mehlert, of Dreibach & Co.; and others. It was decided to enforce the rule, that any member of the Produce Exchange joining the Grain Exchange or any similar organization, either in person or by proxy, shall be suspended from the exchange. A lively rivalry has arisen between the two exchanges. The Grain Exchange has greater dash and familiarity with the call business, but the Produce Exchange will make a vigorous fight for supremacy, and will start in a formal afternoon call on grain on and after June 1st, in addition to the regular morning call. A lively speculative business in grain is proposed in the near future.

A SHIP CAPTAIN FINED.

PORTLAND, Or., May 23.—Captain Thompson of the British steamer *Bothwell Castle*, has been fined \$9,000 by Judge Deady of the United States Court, for violation of the passenger act in bringing from Hong Kong 160 more passengers than the capacity of the ship.

A WATCHMAN ON A SPREE.

TUCSON, May 24.—At four o'clock this morning J. H. Weber, night watchman for L. Zeckendorf & Co., while crazed by drink, fired promiscuously at people passing the store, and set in bringing from Hong Kong 160 more passengers than the capacity of the ship.

DISREGARDING PARALLEL.

The majority of the extreme Home Rulers disregarded Parrell's advice to abstain from voting in the division on Gladstone's motion.

SHOOTER WINS THE DERBY.

LONDON, May 24.—The Derby was won to-day by Shotover; Quiktime, second; Lorillard's Schem, third; Bruce, the favorite, came in fourth. The time of Shotover was 2:45. The betting against Schem at the start was one to one.

HORRIBLE ATROCITIES PERPETRATED.

VIENNA, May 24.—Information has just reached here that incendiaries have destroyed Smargon, a village near Mensk, and that the mob who fired the place burned a number of Jewish babies alive.

In Almost too Great a Hurry.

It was an Ohio man who, when a terrible storm set in one night, rushed into the house of a neighbor and cried out:

"Jones, this is the ending up of earth."

"I'm afraid so—I'm afraid so," was the reply.

"And what shall we do?"

"Make our peace with Heaven."

The wind blew still stronger, the house began to shake, and the excited man exclaimed:

"Jones you lost five bushels of wheat last fall."

"Yes."

"And you have your suspicions?"

"I have. The man who took my wheat had better own up."

"Can you forgive him?"

"I can."

Here the wind suddenly dropped, and, after a look through the window, the conscience-stricken man turned and finished:

"Yes, if I ever meet him I'll advise him to call around."—*Detroit Free Press.*

furnishes water for small engines at about a cent a cubic yard, under a pressure of four and one-half atmospheres, thus giving a horse-power for seven cents an hour. This is only half the charge that is made for water for domestic purposes. Two kinds of apparatus are used for motors, one acting on the plan of a turbine and the other through pistons which are actuated by pressure. The second seems to be the more generally preferred.

LOOKING AHEAD.

When working up the campaign for a loan to the Southern Pacific Railroad in 1872, those engaged in it used to indulge in what some considered extravagant speculations as to the future of Southern California after the completion of the Southern overland. We were promised a large population, manufactures, limitless miles of orchards and vineyards, extensive railroad workshops, and wealth to all the industrious and prudent. And looking at our then barren foothills and sparsely settled plains and small volume of business, the doubters seemed to have the best of it. And really a large showing of prosperity with a small beginning to one accustomed to the slow growth of Eastern towns and Eastern vegetation was something to excite incredulity. But the steady march eastward of the rails soon began to turn the doubters into inquirers, and from inquirers into stout-hearted believers, until to-day we do not think there is a man within fifty miles of this centre of trade who does not have the firmest faith in a future grander than any prophet has dared to predict. We have already the trade beyond our resources to supply, and the great want of to-day is producers to fill the hands with food that are now stretched towards us filled with coin. The farmer never had such a prospect before him as is now open to the producers of Southern California, in the market for everything eatable for man or beast.

The advertising we have had during the past spring and winter through the many tourists and visitors who have come among us, will do much to expedite future growth, and bring us the producers and the mechanics to work and build; and so we may look for the full realization of all those bright visions at an early day. And we would suggest to all whose business is to be affected by the wave of immigrants which the return of another winter in the East will put in motion towards our shores, to take time by the forelock, and commence now to prepare for it. We shall need hotel accommodations far in excess of our present supply; and boarding and lodging houses should be increased and cottage residences be multiplied indefinitely. Everything required by a numerous people will be in requisition. Let no one be caught napping or with no oil in his lamp.

DEMOCRATIC "OFF-YEAR."

Private advice from the Bay City apprise us that the determination of the Hearst wing of the Democracy to run that gentleman for Governor is solid, and cannot be changed. He evidently has the support of the regulars, who will not be turned aside, and those who know how to carry the Democratic vote rely upon his "barrel" to do it with. Possibly we may err, but from the lay of the straws we judge the case is settled. We desire to condole this early with the disappointed, and extend an invitation to them to come over to our camp. We shall give them a welcome, and assure them that in our nominee they will find neither a creature of a "boss" regime nor the tool of a "machine," but a man standing on the broad platform of humanity—a man of the people and for the people, because from the people, and sympathizing with their wants. He is a man reliable as a defender of law and order; a friend of education; and, desirous of lifting the terrible burden of taxation from the people, he will favor from principle all efforts to economize public expenditures. To the support of such a man we welcome all anti-Hearst Democrats.

BEEF CATTLE.

Our cattle dealers are now receiving beef from Lower California to supply our local market. They drive through San Diego county. The supply from which we can draw is rapidly growing less, and we shall be embarrassed for beef at an early day, unless some far-seeing capitalist goes largely into the stock business for our benefit as well as his own.

It is stated on good authority that over fifty thousand will be added to the population of California from the East during the coming summer. It is safe to assert that Los Angeles city and county will receive the lion's share of the number. Fortunately the order of things is reversed. Instead of receiving the leavings of the northern part Los Angeles now secures the pick and manages to carry off the richest plums.

A RESEMBLY SUGGESTION.

Ex-Railroad Commissioner Doyle has addressed to the San Francisco Chronicle a two-column letter on the iniquities of the railroad tariff system. Most of the evils he refers to have been exposed many times already; but Commissioner Doyle brings one practical suggestion which looks like business. He suggests an enactment to prevent special rates and all discrimination between large shippers and small. This is so far good; but it deals with only one phase of the evil. Another iniquity, which needs to be enacted against, is the discrimination between different kinds of freight. Except so far as the freight to be transported may be dangerous, perishable or contraband, the company has no right to know what it consists of or what it is worth. If a certain article is shipped to a certain point where it is wanted, it is the business of the railroad company to transport it on the same terms as other less profitable goods, without gobbling up the margin.

OUR STRENGTH.

We have on other occasions given our Democratic friends to understand that the strength and harmony of the Republican party is not to be measured by the little tiffs among a few wire-pullers and professional politicians. They are but a drop in the bucket, numerically, and are outmeasured intellectually by any equal number of the masses. Wire-pullers may gather about the beer barrels, and fix up their slates and parcel out the spoils, but it requires the yeomanry and the workers to win the battle, and when the occasion is worthy of their care they will be there and do their duty. The calmness and quiet of the Republican masses to-day is significant. They are quietly resting and gaining strength for any effort the future may require of them. When the morning dawns on election day they will be at their posts, and its setting sun will see them victorious.

BYRON WATERS, in an emphatic announcement in the San Bernardino Times, expresses his desire to be a delegate to the San Jose convention, and calls Satterwhite the "dictator to San Bernardino Democracy."

GOVERNOR PERKINS has appointed John F. Sheehan of Sacramento, J. E. Farum of Oakland, and Major J. L. Rathbone of San Francisco, as Bank Commissioners.

UNCLE TOM'S CABIN. An Excellent Play Thoroughly Well Performed.

A house filled to overflowing greeted the Jay Bird Uncle Tom's Cabin Company at Turnverein hall last evening, and it seemed to have a corresponding influence on every actor in the company, for they all performed their parts admirably. The version embraces many new and interesting features which relieve the monotony of the old drama and clothe it with a new garment as it were, hence the not present last evening should not fail to attend during the company's brief stay, as they will be rewarded with a three hours' unvaried entertainment. The special qualifications of this company embrace actors of rare merit; a pack of veritable blood hounds, which are, by the way, thrillingly characteristic of ante-bellum times; the Jubilee band, which takes back the memory vividly to the past; and a "celebrated donkey," "Jerry," another important acquisition, and last, but not least, the death and transformation scenes of Eva are exquisitely rendered. V. M. Lansing as "George Harris" was well rendered; and Miss Eliza Glassford as "Eliza," in her perilous flight across the Ohio and the terrible fight with the bloodhounds was superb, creating a feeling of dread and horror in every heart that gave a wonderfully realistic effect to her well executed rendition of her part. Miss Dolly Florence gave thorough satisfaction as "Aunt Ophelia," and was, if possible, eclipsed by Miss Sallie Partington as "Topsy." L. R. Stockwell as "Marks, a Lawyer," did complete justice to that eccentric character, ably assisted by "Jerry," the trick donkey. Baby Bianca Newcomb, as "Little Eva," performed her part eminently worthy of a child far more advanced in years. The garden scene, in which appear "St. Clair," "Uncle Tom" and "Eva," was thrillingly realistic and drew forth many a tear from the audience. Arthur W. Gregory as "Uncle Tom" elicited repeated rounds of applause. He was simply unsurpassed. Sid, S. Hicks as "Simon Legree" rendered his part in a highly efficient manner, sending a cold shiver through a person as he endeavored the well-known cruelty of the character. We bespeak for this excellent company crowded houses during their stay here.

Wanted—A Theater. The imperative need of a first-class theater having a stage sufficiently large to insure a proper rendition of every play in its entirety was well evidenced at Turnverein hall last evening. The stage was not half large enough to allow even a fair representation of many thrilling scenes and on his way home a reporter heard many disparaging remarks reflecting severely on the lack of public enterprise in this city that permits such an insignificant, poorly ventilated hall to occupy the position of leading place of amusement in the city. Public sentiment demands better accommodation and it should be forthcoming without delay.

The Rain. Los Angeles county was visited with a heavy rainfall yesterday, that has done great injury to the hay and grain crops, and but little good to the growing corn. Rain began falling at 8:30 a. m. yesterday. The Government rain gauge showed 1.10 inches up to eight last evening, when it began again and rained till midnight, and quite hard at intervals. There has been at least half an inch of rainfall. At 2 o'clock this morning there is no immediate prospect of any abatement of the storm. The freak puzzles the Californians and is greatly regretted by all, as the damage will far exceed the benefit.

A living and moving glacier has been found on Mount Goddard ridge, between the headwaters of the South Fork of the San Joaquin river and the Middle Fork of King's river. It is a mile in length and 200 yards wide, and moved ten feet last year. It is eighty feet thick and clear blue ice.

Also a petition was adopted requesting the President to veto the bill rechartering national banks.

Investigating with a Vengeance. COLUMBIA, Tenn., May 24.—23 P. M.—Daniel Cannon (colored), a preacher, returning after four years' absence and finding his wife with a young baby, investigated the facts, and then split her head open with an axe, after which he laid the child on the floor and chopped his head off. This place is within a short distance of the Sonora border, and mescal is smuggled across the line and much ill feeling engendered between the American railroad laborers and the Mexicans. A few evenings ago a number of Mexicans, with their families, escaped near Igo's ranch, and the American laborers being drunk, an attempt was made on the Mexicans to compel them to give up their women. This was refused, and shooting and cutting began. When the smoke of battle cleared off, seven Mexicans were found dead and several wounded. A number of Americans were also wounded, and it is expected that three will die.

SANTA ANA'S SENTIMENT.
Resolution Adopted by the Temperance Meeting.

From Our Special Correspondent.

Santa Ana, May 24.

We had a very large assembly of citizens of all classes at the mass meeting last Tuesday evening called to discuss the Sunday law. Animated discussion occupied the time till past eleven o'clock.

The resolution, "Resolved that the citizens of Santa Ana do approve and endorse the keeping of the Sabbath as a day of suspension of all business not absolutely necessary to the wants of man on that day. Also we desire a law so framed that it can be put in force to compel that few who would violate the wishes of the masses by keeping open their place of business on Sunday, to comply with said law, and we will only support such candidates at the coming election who favor such laws," was unanimously carried. Not one, even who have been opposing the law, voted against it. They only desire that all should be treated alike, and if one is compelled to close, all should be compelled to close. We are almost solid for the Sunday law in Santa Ana.

CAPTURED.

Somerset does some Lofly Tumbling but Falls into the Tolls.

His Flight and Capture at Santa Monica by Officer Cells—Brought Back—\$750 Recovered.

William Somerset, the individual celebrated as attempting to elope with Mrs. Thayer Tuesday evening, and who got away with \$920 of her coin, was captured last evening at sundown by Adolfo Cells at Jose Villa's place at old Santa Monica. The whereabouts of Somerset were known to the police Tuesday night, but they did not feel justified in making an informal arrest.

Yesterday morning Somerset was taken to old Santa Monica in a buggy by "Black Joe," a pal of his. They left this city before daylight, and took a circuitous route, going by way of Wilmington. Arriving at Villa's place, Somerset put up for the day and buried his money. He sent "Black Joe" back some distance, buying a good riding horse, with strict injunctions to be back at four o'clock in the afternoon, but Joe met with various accidents last night and did not return. This made Somerset uneasy, and he purchased a very fine horse of a Mexican named Marquis living there, for \$110, and hitched the animal to the post just to the further side of the house whence Cells approached. Chief King and Deputy Sheriff Berry were searching the vicinity of Wilmington thoroughly, but could get no clue. After four o'clock yesterday afternoon Captain Cuddy received private advice of Somerset's whereabouts, and started Cells either as fast as it was possible for two horses to land him. Cells got to the Santa Monica Canyon just at dusk, and stopped at Marquis' place, about a half a mile from Villa's, to inquire about Somerset. While talking with the lady of the house, he observed the door of Villa's saloon open and a woman came out, and he saw her go down the stairs. When he was standing, thinking her actions suspicious, he started towards her, when he observed some one trying to pull her inside and lock the door. Then throwing off his large talma, which had disguised him, he started on a dead run for the door. On the way he met a Mexican, who, in response to an inquiry, that Somerset was not in Villa's saloon. Paying no attention to the answer, he commenced a vigorous run. The woman suddenly vanished, and the door closed, and Somerset as quickly appeared at another door, and running out, he saw her go down the stairs. He then turned around so that he could not be seen. Cells closed in on him, and covering him with his pistol, Somerset surrendered. Cells then searched him, recovering \$600 in gold coin, and brought him and the horse to town. Somerset was lodged in jail with the charge of grand larceny brought against him. He will be arraigned before Judge Adams, in the Police Court, this morning at 9 o'clock. Mrs. Thayer filed a complaint against him yesterday, and she sticks to her resolution to prosecute Somerset, it will undoubtedly go hard with him. Somerset is known in this community as a bad egg. At one time he was in the chain gang here six months for whipping his mother. He told the officers last night that his plan was to make his way over the mountains to Lone Pine, to the county, and was intending to take a *nymph* *du pare* named Kitty, at Bakersfield, with him to start a dance house with Mrs. Thayer's money, and on horseback, and keeping well away from railroads he hoped to complete his journey. When Fred Thayer, the woman's husband, returned yesterday from his regular trip out on the track he thought his wife had lost about \$2,000, but she denies, saying it was only \$920. When the money was broken down with tears, but seemed to be more sorrowful at having been discovered than at the awful crime which she has committed. The husband seems to take things philosophically. The police deserve credit for their prompt action and success. The affair has created a great deal of interest.

THE NAVAL CADETSHIP.

John McMillan, of Wilmington, the Successful Man.

The Board of Examiners met again last evening in the Supreme Court rooms to examine Godfrey Birdsall, of Los Angeles, and John McMillan, of Wilmington, the two remaining applicants of the original fifteen. They were subjected to a fuller and more strict examination than before over the same course of studies as in the first examination. The difference in their standing was slight, and John McMillan, of Wilmington, was the successful applicant. If again successful at the examination at Annapolis, he will be admitted, and Commodore McMillan may yet be numbered among the galaxy of the heroes of future historians.

THE WATER QUESTION.

The City's Right to the Water Should be Summarily Settled.

Errors Traced—The people of Los Angeles are getting out of patience with the recurrence every year of the lawless meddling of the Feliz ranch owners or renters with the waters of the river; and a correspondent in our evening contemporary pertinently inquires if it is to never cease.

Our people may as well make up their minds first as last that they can never enjoy their right to the control of the waters of the river, in peace and quietness, till the absurd and mischievous decision of our former District Court in the suit between the city and the owners of the Feliz ranch is formally set aside, or else, as Col. Godfrey, special counsel for the city in these water troubles, has all along advised the City Council, till the right of way of the Canal and Reservoir ditch is formally and legally condemned.

If one of the other of these alternatives is inevitable before the city can enjoy untroubled the full benefit of the water which belongs to it, to secure the Supreme Court in the Elms water suits, why should not the Council suit itself equal to the occasion and set about securing one of the other, or, better still, both, without delay; and not rest till the water rights of the city are fully and finally vindicated? Till this is done we shall have chronic water troubles. Under color of the decision of the subordinate court giving the Feliz ranch people the preposterous amount of eight cubic feet per second—or ten times as much as they were entitled to according to the findings of the Court itself—they will continue to invade the city's rights till they are compelled to pay for the water as they law. There is a sure way, Col. Godfrey says, in which that may be invoked. Let the Council set the legal machinery in motion at once to secure that result.

ANALYSIS.

A Budget of Interesting News Items as usual.

EDITOR TIMES:—The favorite topic to fall back upon when subjects for conversation are scarce—the weather—has been well discussed during the last two or three days, with sky overcast the whole day, air damp and wind southeast, we should be tempted to say it were going to rain if it were not for the exceptionalness of the thing.

We have found him at last; that is, the long-sought-for candidate for Lieutenant Governor. He is an Anaheim man, and his name is Frank E. E. He is honest, kind-hearted, straightforward; he has several thousand dollars which he does not know what to do with; he is willing to make the sacrifice in order to get rid of the same as fast as possible; he can preside in an able manner at anything from a champagne dinner to a State Senate. What other qualifications are necessary? His noble self-denial merits a rich reward, and we sincerely hope it will be given him. Who will be the next martyr?

There is a good opening here for a fashionable tailor. The hay crop in this vicinity will turn out better than was expected when cutting commenced. Many late sown fields, under the influence of the cool weather and foggy mornings, have held out well, and will make a fair stand. There is some difference of opinion as to future prices, but they are certain to be very remunerative. All kinds of grain will be high.

Bro. John Ascraft, "the Inspired Prophet of God," delivered a sermon at Kroeger's hall last night. His audience was small—but few know he would be here, not having been publicly announced.

Mr. T. A. Darling, our efficient railroad agent, returned with his family on Saturday from a twelve-days' trip to the mountains, much improved in health and spirits.

NEWPORT NEWS.

Rain—Wells—Fine Farm—Party—Census—Cupid among them.

Newport, May 24, 1882.

It is raining; guess we won't have a flood.

Mr. H. H. Wakeman will soon commence the erection of a large barn, to be situated on the property which farmers thought were a godsend when first struck, have proved to be a curse to many, as the water has ruined hundreds of acres of choice land by raising the alkali.

Mr. J. B. Bain is one of our most enterprising farmers. Besides having one of the best and largest hog fields in this end of the State, he is raising stock quite extensively, and has a fine carp pond—one of the largest in the county. He also raises fine hogs, corn, potatoes and barley. Almost the whole of his fine ranch is enclosed by a fence.

The young folks had a nice party in the old school house last Friday evening. Great credit is due to Masters Fred Mosser and Ben Williams for the manner in which they conducted the same. The music was furnished by Brown's string band.

The school census report is: Children between 5 and 17 years, 124; boys, 71; girls, 53; under five, 57; born during the year, 11—4 boys and 7 girls. No war this year—too many girls.

Mr. H. C. Ladd and Mrs. Prethor have gone to the San Juan warm springs. Quite a number have already gone to seek rest and health.

We would give his name but he said not to do so that would be the last. We are not going to offend such a friend, so we'll promise to keep mum forever.

Strawberries.

A kind friend who understands the situation and knows just what will do, to get a newspaper man clean down to his boot-heels, has brought in to this office a basket of the finest, best and sweetest strawberries that ever gladdened a scribbler's heart or stomach. We would give his name but he said not to do so that would be the last. We are not going to offend such a friend, so we'll promise to keep mum forever.

DUARTE.

A Moral and Highly Exemplary Community.

Neither Justice nor Constable in the Settlement—Church Services—L. O. G. T. Officers—Band of Hope.

The Duarte is justly celebrated as a moral and religious community. The people are social, sober, industrious and law-abiding. There is no dram shop within her borders, and the Christian Sabbath is respected. There is neither gambling nor peace, and the settlement, and it is thought that those limbs of the law are not needed to preserve the peace. The young people give great promise of becoming good and intelligent citizens; and the entire absence of the hoodlum element, so prevalent in many California communities, is very noticeable. A large and interesting Union Lodge School meets every Sunday morning at 10 o'clock at the district public school house. The average attendance is more than seventy.
